Vision for MSIE 4.0

Erasmus Plus program gives us an opportunity to move away from developing another continuously improved curriculum.

We would like to have a disruptive curriculum.
We will replace instructors with coaches.
We will replace teaching with training.
We will replace knowledge with competences.
We would like to create assets to society.

There are many footsteps ahead, but we want to make our own.

"We have a great opportunity to do something extraordinary good, much more than just another curriculum. Let’s venture on partnerships and shape students’ learning experience together."

Dr. Ping Ramnass
Project Coordinator

Co-funded by the Erasmus+ Programme of the European Union
