Workshop - Developing the methodology for maturity level self-diagnosis

Curriculum Development
of Master's Degree Program in
Industrial Engineering for Thailand Sustainable Smart Industry

Develop the project plan

- Select distributed virtual tools for teamwork and communication
- Develop work
- Reflect on the developed work

- What progress have you identified in your project this week? What did you do for your project this week? What do you plan to do next week? Can you relate project events to Project management skills? Describes examples.
- What skills have you reinforced this week with classes? What content and / or activities had the most impact or were the most relevant? What questions or concerns would you like to resolve? Do you have extra comments to add? Give specific examples, relating to project management.
