Module II

Customer Experience Value Creation

- Understanding Customers
- Customer Perceived Value Model
- Product-Service Systems
- Co-Creation

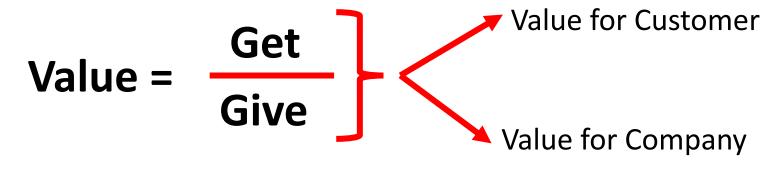

Definition of Value

- Definitions for "Value"
- <u>Value</u> = Overall assessment of utilities towards an offering based on perceptions of what received and what given

Value Exchange

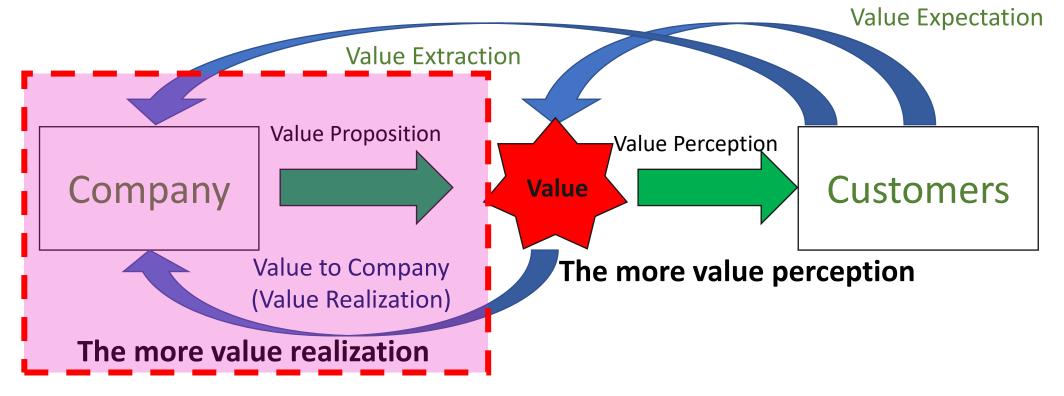

Zeithaml, V. A. (1988). Consumer perceptions of price, quality, and value: a means-end model and synthesis of evidence. *Journal of marketing*, *52*(3), 2-22.

Value Exchange Model

The role of "Value Creation"

The role of "Value Consumption"

Gentile, C., Spiller, N., & Noci, G. (2007). How to sustain the customer experience:: An overview of experience components that co-create value with the customer. *European management journal*, *25*(5), 395-410.

Evolution of Value Proposition

Evolution of Value Proposition

Time

Commodity Extraction

Self-Value Extraction-Based

Characteristics are proposed

Goods Proposition

Tangible features of goods are the key to propose in order for customer satisfy Services Proposition

Intangible benefits are the key to deliver in order for customer to satisfy

Experience Proposition

The focus is on the stimulation of "Feelings" through interaction with the offerings

Pine, B. J., & Gilmore, J. H. (1998). Welcome to the experience economy. *Harvard business review*, *76*, 97-105.

Evolution of Value Proposition

A Legendary Example on Evolution of Value Proposition

Ex: Parents want to make a birthday party for their child

Time

Commodity Extraction

Grocery shop offers ingredients for making a pound of cake

Goods Proposition

Bakery shop offers a pound of cake and customers go and buy Services Proposition

Delivery service of a customized pound of cake

Experience Proposition

Organize the birthday party by company to make a memorable party

The Progression of Economic Value: Coffee

Differentiated Stage T 2-5 dollars experience Deliver 50 cents services Competitive Position Make 10-15 cents goods **Extract** 2-3 cents Undifferentiated commodities Market Premium **Pricing**

Pine, B. J., & Gilmore, J. H. (1998). Welcome to the experience economy. Harvard business review, 76, 97-105.

Experience proposition will be the next competitive battle ground

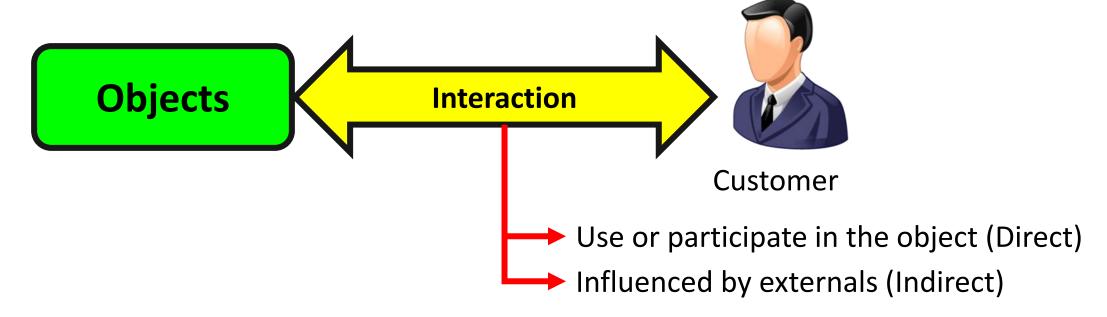

→ It's important to comprehend the way how customers perceive the experience

Customer Experience (CX)

- CX: A set of interactions between <u>customer</u> and <u>objects</u>
- Direct & Indirect Interaction

Gentile, C., Spiller, N., & Noci, G. (2007). How to sustain the customer experience:: An overview of experience components that co-create value with the customer. *European management journal*, *25*(5), 395-410.

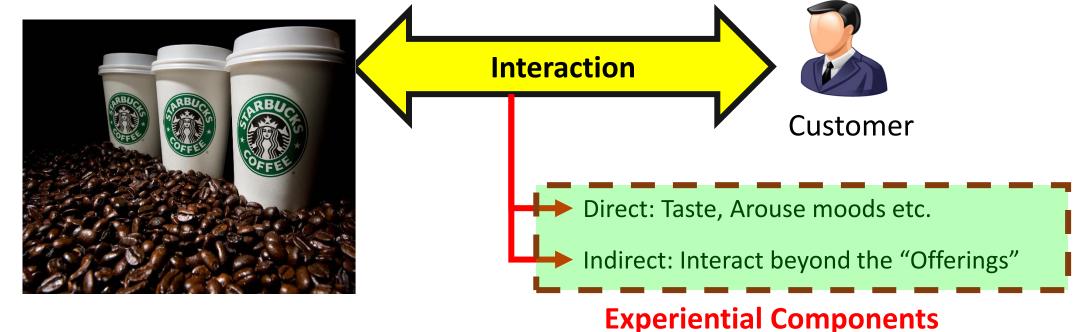

Customer Experience (CX)

- CX: A set of interactions between individual customer and objects
- Direct & Indirect Interaction

Experience Clues: Impact of clues on customer perception

Technical competence in performance is not enough if they aspire to build a reputation for superior provider and build preference for their company. How the service or product is performed is important to customers, too, because it influences the emotional perceptions of quality.
